

Trusted Technical Expertise.

Fish Oil Services & Support

Columbia Analytical routinely analyzes fatty acids obtained from fish, plant or microbial sources. We offer a full monograph test panel for omega-3 fatty acids following the voluntary monograph developed by the Global Organization for EPA and DHA Omega-3 (GOED).

Tests that we support:

- Acid value
- EPA/DHA Assay
- Peroxide Value
- Anisidine Value
- TOTOX
- PCDDs and PCDFs
- PCBs
- Dioxin-like PCBs
- Heavy Metals

Columbia Analytical is a registered contract testing laboratory that provides cGMP-compliant testing to raw material suppliers, CMOs, and product developers/sponsors in the pharmaceutical and nutritional supplement industries.
